

HOSE & CABLE MANAGEMENT SYSTEM

**EZ Claw Provides Truly
“No Touch”**

Maintenance-Free Systems.

EZ Claw sales are approaching 1,000 systems and have logged over 50,000,000 miles without incident!

We have received positive feedback from ...

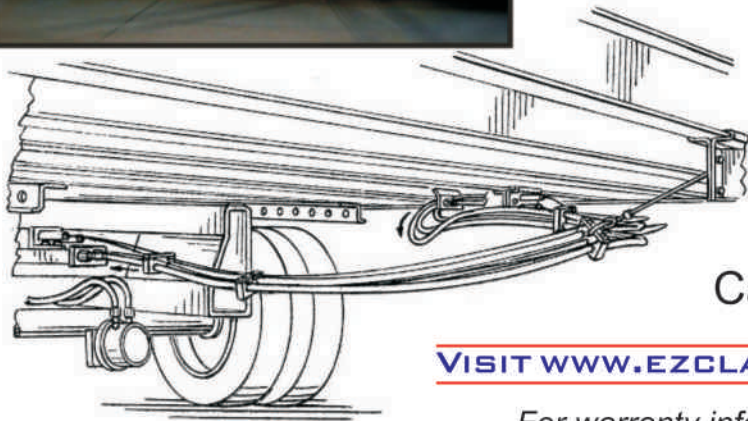

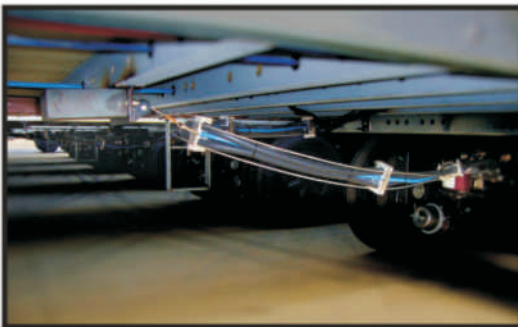

- Fleet Maintenance Managers
- Fleet Maintenance Technicians
- Fleet Drivers

Customers appreciate the comfort of knowing they are much safer with **EZ Claw** game-changing technology and have reduced maintenance costs.

You will be confident knowing your hoses and cables are no longer dangling from a spring but being managed by the **EZ Claw System!**

EZ Claw ...

- Reduces downtime. Reduces expense. Increases revenue. Increases productivity. Increases efficiency. Increases safety.
- Can be integrated to ALL tandem slider hose systems.
- Provides support & guidance without binding, kinking or stretching to improve tandem slider hose life and tractor trailer safety.
- Holds the tandem slider hoses close to the tractor trailer floor and away from road hazards - reducing component failure.
- Tandem Slider Hoses are firmly secured.
- Eliminates unsupported tandem slider hoses which flex, fatigue, wear and fail.
