

# **EZ Claw will be at two shows real soon. Come by and see a demonstration!**

The EZ Claw system for managing and protecting your trailer air brake lines on trailer equipped with sliding tandems is a “no touch” add on that will deliver ROI to your bottom line. This unique system is maintenance free and will prevent on the road hose and cable failures and late deliveries. It will put an end to replacing springs, a regular wear item. Come by and see for yourself at the Technology and Maintenance Council Exhibit in Tampa, FL or the PepsiCo event in San Antonio, TX

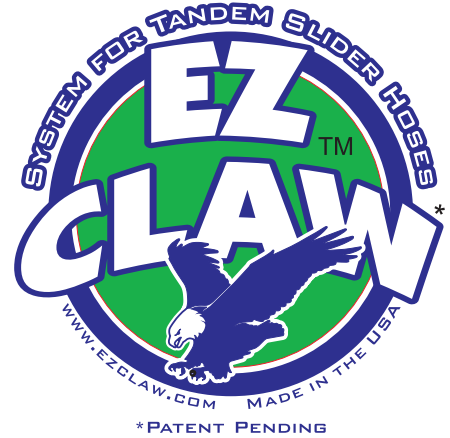

# Extending the Boundaries of Vehicle Maintenance

February 8-11 Tampa Convention Center. Tampa, Florida

The EZ Claw protective system for brake hoses on trailers equipped with sliding tandems will be on display in Booth 1451.

Come by and see the only patented way to protect these vital links to your brakes.

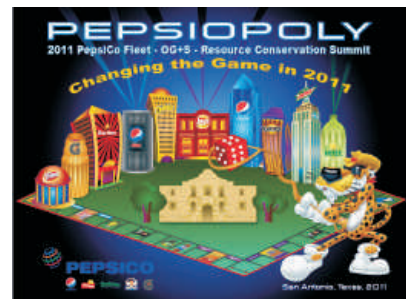

## EZ Claw hits the road!
